Career Objective

To get an opportunity that allows me to fully utilise my potential and make a substantial contribution to the organisation's growth. Seeking a challenging position in a reputed organization where I can acquire new skills, broaden my understanding, and excel in both personal and professional development.

Internship/Training Experience

- **Summer internship at “AROHAN INFOCARE PVT. LTD, Noida:** Jun 2023 – Jul 2023
I completed my summer internship at “Arohan Infocare Pvt Ltd” in Noida,UP using tools such as C#, HTML, CSS, Bootstrap5, JavaScript, Microsoft SQL Server 2019, and Visual Studio 2022 to complete assigned tasks.
- **Summer Internship at “PIEINFOCOM PVT. LTD”, Lucknow:** Jun 2022 - Jul 2022
I completed my summer Internship at “PIEINFOCOM PVT. LTD”. in Lucknow, U.P. through online mode, the training involved understanding of C++ and the basics of Python.
- **Summer training at “SLIET” Longowal:** May 2019 – Jun 2019
I completed my summer training at “SLIET” Longowal, which included an understanding of Data Analysis in Microsoft Excel using operations, identification of various components of the motherboard and presenting the idea of an individual maintaining physical distance in a triple seated Hostel.

Academic Projects

- **Voting System (Website):** May 2022

It was a group project, so we built a website using tools like HTML, CSS, and JavaScript for the front-end and MySQL and PHP for the back-end where people can vote for their favourite candidate online. In this, we provide a list of candidates, positions, voters and admin details.

Other Projects

- **Portfolio:**

This portfolio website is developed using tools like HTML, CSS and JavaScript. It is a static website, it is a single-page website which has a contact form which is used to send messages directly to the email with the help of JavaScript, the project section contains the list of projects that I have done so far and it also contains links to social media and coding platforms.

- **Modern Real Estate Market Place | React, Express.js, ReactJs, NodeJs, MongoDB, Redux toolkit**

- * Developed a full-stack web application using with jwt and redux toolkit and React as the frontend

- * Used Tailwind CSS for rapidly building custom user interface

- * User can sell or buy Real Estate property through it.

- **Developed a secure login and logout page | Html, CSS, Javascript , Bootstrap**

- * Implemented a secure login and logout page with OTP verification
